## Frequently Asked Questions

- 1. What is the difference between CRM and ERP software?**  
CRM manages customer relationships, leads, and sales, while ERP integrates finance, HR, inventory, procurement, and operations into one system.
- 2. Can you develop a CRM or ERP system tailored to my business?**  
Yes. We build secure, scalable, custom CRM and ERP solutions based on your business processes and goals.
- 3. Which industries can benefit from CRM and ERP solutions?**  
Real Estate, Healthcare, Education, Manufacturing, Retail & E-commerce, Logistics, Construction, Hospitality, Finance, and Professional Services.
- 4. Can your CRM and ERP software integrate with existing systems?**  
Yes. We integrate payment gateways, accounting software, HRMS, inventory systems, websites, mobile apps, WhatsApp Business API, email platforms, and third-party APIs.
- 5. Why choose iSoft360 InfoTech for CRM & ERP development?**  
We deliver secure, scalable, and user-friendly CRM & ERP solutions with complete implementation, integration, training, and ongoing support.
